****PRE-ANESTHETIC BLOODWORK:** Your pet is scheduled for a procedure that requires anesthesia. We, like you, consider your pet's well-being our highest priority. We **STRONGLY RECOMMEND** that a pre-anesthetic blood profile be performed prior to anesthesia to help identify any pre-existing medical conditions. This blood panel will evaluate blood levels, major organ function and electrolyte levels. A pre-anesthetic blood profile does not guarantee the absence of complications but can greatly reduce the risk of complications, as well as identify medical conditions that could require medical treatment in the future. The cost for this Pre-Op Bloodwork is \$65 that is not included in standard cost of procedures except for dentals.

****AESCULIGHT SURGICAL LASER:** The Aesculight Surgical Laser can be used in place of a scalpel. With the surgical laser, there will still be an incision but the laser will make recovery quicker and less painful for your pet. The surgical laser cauterizes vessels as it cuts, resulting in less blood loss. It also makes a finer cut, damaging less cells. For our surgical patients over 30 pounds, surgical laser is required and is already included with standard cost of surgery. If you choose this option for patients under 30 pounds then the additional cost is \$45.

****THERAPY POST LASER TREATMENT:** A Therapy Laser Treatment can be done on your pet following surgery. The Therapy Laser Treatment increases blood flow to the wound which allows the body's own immune cells to get to the area where they are most needed. The Therapy Laser decreases inflammation and stimulates cytokines that speed the healing process. This option is included for all canine surgeries and dentals and is already accounted for in their standard cost. If you choose this option additionally for any other procedures it is an additional \$15.

Please indicate your choice:	Accept	Decline
Pre-Op Bloodwork		
Aesculight Surgical Laser		
Therapy Laser		

Rabies Vaccine - \$18 for 1-year vaccine (required by law in Indiana for all dog/cats to be current)		
Other Vaccinations		
Microchip (\$60)		
Biopsy (if needed for growth removal) (\$175)		

As an agent for this animal, I accept full financial responsibility. I understand that I am assuming all risks involved in care and treatment for this animal. I consent to administration of anesthesia as deemed necessary by the doctor. I acknowledge that risks and the possibility of complications exist in any surgical or medical treatment and will not hold Orange County Animal Clinic responsible or liable under any circumstances.
